Sub: Exhibition - Mangalore Municipal Council - Participation of requested.

The Municipal Council, Mangalore, will be conducting an All India Exhibition of arts, crafts and industries from about the 15th of December 1954 for about 3 weeks. It has been resolved to request the various Government Departments to take up stalls in the said Exhibition and to exhibit or display some of the work of their respective departments by allotting stalls to them as per their requirements. It would be presumptious on my part to point out that besides its educative value these displays would serve as good publicity for the useful and good work that is being done by our various Government Departments. I would therefore request you to kindly let me know whether your department would like to take up a stall and if so the size and other requirements may kindly be intimated to me sufficiently in advance Regarding the rent to be charged it will be intimated on hearing from you. This may please be treated as urgent.

We can participate in the exhibition at Mangalore as before. In the West Coast of Madras State, it is only in Mangalore that the exhibition is held. It would be useful to popularise the blood bank attached to the Headquarters Hospital and obtain voluntary blood donations from the public for the maintenance of the blood bank in that district.

As for running the blood bank stall during the exhibition, it is suggested that the Medical Officer, the staff nurse and the nursing orderly attached to the blood bank of the Headquarters Hospital, Mangalore may be deputed to put up the blood bank stall at the exhibition. Necessary propaganda materials. will be supplied by the King Institute, Guindy along with a technician or a first grade laboratory attendant. The District Medical Officer, Mangalore may be requested to render all possible assistance to the Medical Officer-in-charge of blood-bank stall to run the exhibition successfully. He may also be requested to provide watchman to look after the blood bank stall day and night during the period of the exhibition.

If my proposal is approved, necessary sanction of the Government may kindly be obtained accordingly. Sanction may also be obtained for a sum of Rs.300/- (Rupees three hundred only) for Railway freight and other incidental expenses in connection with the exhibition and for daily allowance and travelling allowance for the staff.

Regarding space for the stalls, two stalls of 12 feet by 12 feet are required, one for blood collection which should be made dust proof by plastering with cement and the other for keeping the exhibits.

The exhibition authorities may be requested to give rent free stalls to the Government departments like this, as we render humanitarian service for saving lives. The Red Cross Society of the city may be requested to inform the local branch to render help in propaganda at the exhibition.
